

Sports Connection Project

Congratulations! You have been selected to create a database for a new local business called "The Sports Connection."

1. Open a new database and name it → **Sports Connection by Your Name**
2. Create a table to enter new members at "The Sports Connection." Fields you will need include → First Name, Last Name, Address, City, State (hint: all cities are located in Louisiana: LA), Postal Code, Age, and Gender (male or female). Remember to select data types and field sizes as necessary. Also, use default values, input masks, validation rules and validation text where appropriate. Save as: **Members by Your Name.**
3. Add yourself as the first user at "The Sports Connection." (Obviously, use your own name, age, and gender. For the address use: 1405 Penn Street, Metairie 70002-0202.)
4. Add the rest of the records on the back of this page.
5. Sort the table alphabetically by last name, then alphabetically by first name. Print this table so "The Sports Connection" has a current hard copy of all its new members. After you print the table out, circle your name found in the table.
6. "The Sports Connection" wants to send fliers to the people in Metairie. Create a report that will show just these people in Metairie and print. (Save it as **Metairie.**) Again, circle your name.
7. Create a report to show all "The Sports Connection" members. Group this report by City, and sort it alphabetically by last name. Add a page footer including your name and a report header with an appropriate title for the report. Save the report as: **SC Members** and print.
8. Since we have started team activities for teen males, we now want to start team activities for teen females. Create a report that will show all females under the age of 20. Group this information by City and then sort it in descending order by age. Be sure to add a header with a title and a footer with your name.

You should have 4 printouts. Make sure your name is somewhere on each page. Put the papers in order, and staple them together. Submit them to your manager and thanks for your work here at The Sports Connection!
