

Formulas vs. Functions

1. Create the following spreadsheet-->

Business Department Basketball Team						
	Successful			Value		
	3-Point	2-Point		3-Point	2-Point	Total
	Shots	Shots		Scored	Scored	Points
Waznak, J.	6	15				
Dorward, D.	3	9				
Popielarz, M.	0	12				
Schaffer, C.	1	7				
Brophy, R.	2	0				
Casciole, S.	3	5				
Baldauff, H.	1	3				
Molitoris, M.	0	1				
Goss, L.	0	2				
Miller, D.	4	4				
Powlus, M.	0	2				
Chamberlin, K.	2	0				
Natori, D.	0	4				
total						
average						
max						
min						

2. Calculate the FORMULAS that show how many points each member earned for 3-Point Shots, 2-Point Shots and the Total Amount Earned.
3. Use FUNCTIONS to calculate the total, average, max and min for each column.
4. Add a header and save this workbook as basketball.
5. Print formulas and values.
