

M & M's

1. Create the following spreadsheet-->

M&M's COUNTED IN 3 POUND BAG					
	Peanut	Plain	Krispy	Total	Average
Blue	17	18	94		
Red	26	36	75		
Orange	25	54	68		
Yellow	51	73	73		
Brown	26	127	188		
Green	25	55	45		
Total					
Average					
Max					
Min					

2. Calculate Totals, Averages, Max, & Min in available cells

3. Add a column (H) that says Percentage Per Bag.

Then perform the calculation. (Average "color" / Average Total * 100)

4. Change the colors of the font in each row to match the color of the M&M.

5. Add a header and save as mm.

6. Print formulas and values.
