

## AN OPTION-->

Create the following worksheet:

**OR**, you may create your own spreadsheet on something that interests you. Get your idea ready that contains functions as total, average, max and min. Then show me for approval.

Commision Calculation				
Based on 2002 Top Model Prices				
Today's Date				
				<b>My</b>
	<b>Online</b>	<b>Online</b>		<b>Commission</b>
	<b>Computer</b>	<b>Amount</b>	<b>Sales</b>	<b>2% of</b>
<b>Brand</b>	<b>Value</b>	<b>Sold</b>	<b>Total</b>	<b>Sales Total</b>
<b>Compaq</b>	\$999.00	21		
<b>Dell</b>	\$1,119.00	20		
<b>Gateway</b>	\$1,999.00	8		
<b>iMac</b>	\$1,799.00	17		
<b>eMachine</b>	\$774.99	11		
<b>HP</b>	\$1,519.00	15		
		Total		
		Average		
		Min		
		Max		

1. Type in the information as you see it above.
2. Perform calculations to figure out the total value amount that you sold and then what your commission would be based on that total value.
3. Find the total, average, min and max for the sales total column and commission column.
4. Add a header with your name, date, and file name
5. Save as: commision
6. Print values and formulas
